

Simply the best fixation.

FISO
Swiss Made

Strato μ -Line **3D Articulated Gauging Arm for highest precision**

FISSO
Swiss Made

Simply the best fixation.

Perfect solution for measurements in the μ -range.

The Fisso articulated arms can be positioned easily and precisely in the desired position. All three joints are fixed with the central tightening knob. The quick lock and the stepless tensoning system assure high ease of use and allow efficient working.

Strato μ -Line is an extension of the Strato Line into the high precision area. The articulated arm features very high stability and accuracy due to the strongly dimensioned components. The precision fine adjustment with excellent ease of positioning and high repeat accuracy is especially suited for measurements in the μ -range.

Standard sets with precision fine adjustment with/without base.

Art. No.	L-33.10	L-33.20	L-33.30	
Model	L-33 P+SM	L-33 P+G	L-33 P	
Approx. total height mm	444	439	389	

Components:

Articulated arm

Art. No.	Model	Approx. radius of movement mm	Thread upper/lower
